

PHASE 1 ADVANCEMENT FORM
Phase 1 Completion – Field Advancement to Phase 2

Paramedic Student _____

To complete Phase 1, the student must:

1. Run a minimum of 10 patient contacts (BLS / ALS) with documentation (PCR)
2. Run with 1 preceptor with a recommendation in order to move into Phase 2
3. Document Phase 1 preceptors below
4. Submit the BLS Skills Competency Form

The **FIELD INTRODUCTORY PHASE** is designed to provide the paramedic students with the opportunity to meet and assist paramedics in the performance of their duties while exploring possible student-preceptor relationships. By signing below, the preceptor attests to the student's ability to perform a comprehensive basic patient assessment, and their readiness to advance into Phase 2.
